

Ali Abdelrahman

Front-End Developer

I am a front end developer and have more than 2 year professional experience in converting various web designs into a responsive website on all different screens. My career goal is to enhance experience in web development. To work as a user interface developer, develop websites and applications using the latest web development technology and enjoy my work with an organization that prides itself on using advanced thinking practices. I have the ability to work in a team as an active member who performs my duties and share knowledge with team members
